

Stand For Kids Day 2003

The East Washington target area partnership, celebrated its third annual Stand for Children Day on June 7, 2003. The celebration was one of many held around the country in support of a common mission: to ensure that children grow up healthy, safe and educated.

This year's celebration was a day of fun, learning and sharing. Children enjoyed cotton candy, moonwalks and face painting. Others browsed information tables, met community workers and received free health checks!

Pictures made available through EPCAT organization, a Weed and Seed partner.
